

## ABSTRAK

Seorang mahasiswa memerlukan persiapan yang matang terkait keputusan karirnya. Dalam pengambilan keputusan karir diperlukan adanya sebuah keyakinan dalam menentukan karir tersebut. *Career Decision making Self-efficacy* adalah faktor yang sangat penting pada diri individu, khususnya pada mahasiswa tingkat akhir. Mahasiswa tingkat akhir akan mengalami masa transisi dari perkuliahan menuju jenjang karir selanjutnya dimana terdapat fase yang mungkin kurang stabil. Terdapat beberapa fenomena yang berkaitan dengan ketidakstabilan tersebut yang berpengaruh dengan keputusan pada karirnya dimasa depan, seperti kurangnya *Career Decision making self-efficacy*. Penelitian ini bertujuan untuk mengetahui apakah terdapat hubungan antara *career calling* dengan *Career Decision making Self-efficacy* pada mahasiswa tingkat akhir. Terdapat dua hipotesis pada penelitian ini yaitu terdapat hubungan antara *Presence of career calling* dan *Search of Career calling* dengan *Career Decision making Self-efficacy* pada mahasiswa tingkat akhir di Surabaya. Penelitian ini menggunakan metode kuantitatif dengan desain penelitian korelasi Spearman yaitu untuk mengetahui adanya hubungan antar variabel. Adapun skala yang digunakan peneliti yaitu skala CVQ (*Career and Vocational Questionnaire*) dan skala CDMSE Long-form (*Career Decision making Self-efficacy*). Kuesioner pada penelitian ini telah disebar dan mendapat 137 responden mahasiswa aktif tingkat akhir di Surabaya, untuk teknik pengambilan sampelnya menggunakan *convenience sampling*. Hasil analisis penelitian ini menggunakan aplikasi pengolahan data JASP versi 0.14.0 dan menunjukkan hasil bahwa tidak terdapat hubungan antara *Presence of Career calling* dengan CDMSE ( $r=0.1179$ ;  $p=0.170$ ;  $p < 0.05$ ), sementara itu terdapat hubungan antara *Search of Career calling* dengan CDMSE ( $r=0.1738$ ;  $p=0.042$ ;  $p < 0.05$ ). Kesimpulan pada penelitian ini adalah terdapat hubungan antara *Search of Career calling* dengan *Career Decision making Self-efficacy* pada mahasiswa tingkat akhir.

**Kata Kunci:** *Career Decision making Self-efficacy, Career calling, Mahasiswa tingkat akhir*

## **ABSTRACT**

*College student needs thorough preparations regarding his career decision. In about career decision making, it will be necessary to have a belief in determining career. Career Decision making Self-efficacy is a great main factor, especially in final year student. Final year student will experience a transition period from college to higher level career path where there might be unstable phase out there. There are several phenomena could be related to this instability that might affect their decision in his future career, such as lack of Career Decision making Self-efficacy. This study aims to determine the relationship between career calling and career decision making self-efficacy towards final years student in surabaya. There are two hypothesis in this study, the correlation between presence of career calling and search of career calling with career decision making self-efficacy towards final years student in surabaya. This study using quantitative research method with spearman correlational design which is could determine the correlation between variables. The scale used in this study is CVQ scale (Career and Vocational Questionnaire) and CDMSE Long-form scale (Career Decision making Self-efficacy). The questionnaire was spread out and received 137 respondents form final years student in surabaya, convenience sampling is the sampling technique of this study. The final result of this study using JASP indicate that there is no correlation between presence of career with CDMSE ( $r=0.1179$ ;  $p=0.170$ ;  $p < 0.05$ ), meanwhile in the second hypothesis there are having correlation between search of career calling with CDMSE ( $r=0.1738$ ;  $p=0.042$ ;  $p < 0.05$ ). the conclusions in this study there are correlation between search of career calling with career decision making self-efficacy toward final years student.*

**Keyword:** *Career Decision making self-efficacy, Career calling, Final year student*
