Perancangan Proyek Resort dengan Pendalaman *Healing Architecture* oleh Konsultan Arsitektur Interior PCH Architect

Seiring berjalannya waktu, kebutuhan masyarakat akan desain hunian dan fasilitas penunjang seperti kantor, pusat perbelanjaan, dan lainnya semakin meningkat. Melihat hal tersebut, konsultan arsitektur dan interior PCH Architect hadir untuk membantu masyarakat mendapatkan desain bangunan yang ideal sesuai dengan pendekatan desain healing architecture yang dimiliki oleh perusahaan. Pendekatan ini dipilih karena melihat masyarakat saat ini yang dituntut untuk mengikuti perkembangan zaman yang cepat, yang mengakibatkan masyarakat rawan terhadap stres atau depresi, sehingga dapat memicu berbagai penyakit lainnya yang dapat membahayakan diri. Adapun, healing architecture adalah pendekatan desain arsitektural yang memperhatikan aspek alam, indra manusia, dan psikologi, guna memberikan kenyamanan dan membantu proses pemulihan diri seseorang. Untuk mencapai hal tersebut, perlu dilakukan berbagai tahapan desain, mulai dari observasi dan analisa lokasi, riset, ideasi dan pengembangan ide desain, serta tahap finalisasi desain. Proyek yang dikerjakan bernama The Grand Moili Resort yang berlokasi di Kabupaten Banggai, Sulawesi Tengah. Lokasi proyek ini berada di tepi pantai dengan suasana yang tenang dan nyaman serta mudah dijangkau oleh masyarakat karena terletak dalam kawasan area berkembang Kabupaten Banggai. Adapun, keinginan dan kebutuhan pengunjung dan pemilik resort terkait desain yang nyaman dan tenang serta sesuai konteks akan dijawab dengan pendekatan healing architecture yang diterapkan pada elemen-elemen desain arsitektur dan interior serta pemanfaatan lokasi dan daerah sekitar untuk mendukung penerapan pendekatan ini.

Resort Project Design with Healing Architecture Approach by Architecture Interior Consultant PCH Architect

In this Era, people's needs for residential designs and supporting facilities such as offices, shopping centers, and others are increasing. Through this, the architectural and interior consultant PCH Architect present to the people to help the community obtain the ideal building design according to the company's healing architecture design approach. This approach was chosen because it sees today's society which is required to keep up with the rapid development of the times, which makes people prone to stress or depression, so that it can trigger various other diseases that can endanger themselves. Meanwhile, healing architecture is an architectural design approach that pays attention to aspects of nature, human senses, and psychology, in order to provide comfort and help one's self-healing process. To achieve this, it is necessary to get through several stages of design, starting from site observation and analysis, research, ideation and development of design ideas, and design finalization stage. The project is The Grand Moili Resort which is located at Banggai Regency, Central Sulawesi. The project location is on the beach with a calm and comfortable atmosphere and its easily accessible to the community because it is located in the developing area of Banggai Regency. Meanwhile, the wishes and needs of visitors and resort owners regarding a comfortable and quiet design that is appropriate to the context will get the solution with a healing architecture approach that is applied to architectural and interior design elements and also use of the location and surrounding areas to support the application of this approach.
